From omics to multi-omics: a review of advantages and tradeoffs

CN Hayes, H Nakahara, A Ono, M Tsuge, S Oka - Genes, 2024 - mdpi.com

Bioinformatics is a rapidly evolving field charged with cataloging, disseminating, and analyzing biological data. Bioinformatics started with genomics, but while genomics focuses …

Protein data bank: a comprehensive review of 3D structure holdings and worldwide utilization by researchers, educators, and students

SK Burley, HM Berman, JM Duarte, Z Feng, JW Flatt… - Biomolecules, 2022 - mdpi.com

The Research Collaboratory for Structural Bioinformatics Protein Data Bank (RCSB PDB), funded by the United States National Science Foundation, National Institutes of Health, and …

RCSB Protein Data Bank (RCSB. org): delivery of experimentally-determined PDB structures alongside one million computed structure models of proteins from …

SK Burley, C Bhikadiya, C Bi, S Bittrich… - Nucleic acids …, 2023 - academic.oup.com

Abstract The Research Collaboratory for Structural Bioinformatics Protein Data Bank (RCSB PDB), founding member of the Worldwide Protein Data Bank (wwPDB), is the US data center …

Generating 3D models of complex carbohydrates with GLYCAM-Web

OC Grant, D Wentworth, SG Holmes, R Kandel… - Nature …, 2026 - nature.com

We present online three-dimensional (3D) structure-prediction tools at GLYCAM-Web (www. glycam. org) that can be used for generating experimentally consistent 3D structures of …

Uncovering protein glycosylation dynamics and heterogeneity using deep quantitative glycoprofiling (DQGlyco)

CM Potel, ML Burtscher, M Garrido-Rodriguez… - Nature Structural & …, 2025 - nature.com

Protein glycosylation regulates essential cellular processes such as signaling, adhesion and cell–cell interactions; however, dysregulated glycosylation is associated with diseases such …

Restoring protein glycosylation with GlycoShape

CM Ives, O Singh, S D'Andrea, CA Fogarty… - Nature …, 2024 - nature.com

Despite ground-breaking innovations in experimental structural biology and protein structure prediction techniques, capturing the structure of the glycans that functionalize proteins …

Leveraging glycosylation for early detection and therapeutic target discovery in pancreatic cancer

T Pienkowski, K Wawrzak-Pienkowska… - Cell death & …, 2025 - nature.com

Pancreatic cancer (PC) remains one of the most lethal malignancies, primarily due to late-stage diagnosis, limited biomarker specificity, and aggressive metastatic potential. Recent …

Sialic acid-containing glycolipids mediate binding and viral entry of SARS-CoV-2

L Nguyen, KA McCord, DT Bui, KM Bouwman… - Nature chemical …, 2022 - nature.com

Emerging evidence suggests that host glycans influence severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) infection. Here, we reveal that the receptor-binding domain …

Pharos 2023: an integrated resource for the understudied human proteome

KJ Kelleher, TK Sheils, SL Mathias, JJ Yang… - Nucleic acids …, 2023 - academic.oup.com

Abstract The Illuminating the Druggable Genome (IDG) project aims to improve our understanding of understudied proteins and our ability to study them in the context of …

Genetics of glycosylation in mammalian development and disease

P Stanley - Nature Reviews Genetics, 2024 - nature.com

Glycosylation of proteins and lipids in mammals is essential for embryogenesis and the development of all tissues. Analyses of glycosylation mutants in cultured mammalian cells …
