PROFESSIONAL SUMMARY

A strategic executive with demonstrated track record of leading through acquisitions and change to meet aggressive company goals while maintaining a culture of collaboration and accountability. Customer-centric approach to product development and commercialization. Deep technical and scientific knowledge and awareness of technological developments to envision change states needed to maintain and grow company relevance and value. Strong, intrinsic value system with irreproachable integrity and dedication to excellence. Ability to build and nurture strong, productive, professional relationships with internal and external partners.

HIGHLIGHTS

- Lead teams through continuous, fast-paced change in a "start-up" environment to achieve strategic objectives
- Redesigned the product organization through a purposeful, zero-based org design process to meet the needs of a growing and changing company
- Successfully led the relocation of the manufacturing and office site from a 40-year-old facility to a purpose-designed and built, functionally efficient facility on time and under budget

PROFESSIONAL EXPERIENCE

Vector Laboratories, Inc. **September 2021 – Present**
Vice President of Product

- Lead company-level strategic planning and execution
- Identify and evaluate M&A targets to further strategic objectives
- Execute strategies for revenue growth through organic and inorganic pathways, levering external partnerships
- Lead product management, product development and quality assurance functions
- Build and develop teams and individuals to achieve personal goals and support business needs

Vector Laboratories, Maravai Life Sciences, Inc. **June 2018- September 2021**
Senior Director, R & D and Operations

- Direct operations teams to improve and maintain efficient manufacturing processes and deliver quality product
- Develop and execute strategies for revenue growth through organic and inorganic pathways
- Lead R&D team to develop new products for Vector's portfolio
- Establish department goals and directions and lead teams to achieve success

Vector Laboratories, Maravai Life Sciences, Inc. **Jul 2017- Jun 2018**
Senior Director, R & D

- Product development and launch of VectaShield Antifade mounting media and TrueVIEW Autofluorescence Quenching Kit.
- Managed new product pipeline in accordance with company portfolio.
- Drove cross-functional program execution and directed new product development from inception to release.
- Implemented Design Control in accordance with ISO 9001:2015 Quality Management System.

Vector Laboratories, Maravai Life Sciences, Inc. **2015 – 2017**
Director, R & D

- Successfully led R&D team through acquisition and significant change of company culture, direction and

goals
- Established design control process for new product development in compliance with ISO 9001:2015
- Simultaneously managed 8 new product family development projects to post-market evaluation stage-gate

Vector Laboratories **2011 – 2015**
Senior Scientist
- Increased efficiency of production processes by promptly identifying bottlenecks and initiating actionable plans.
- Utilized creative thought process and pragmatic action to identify and resolve technical issues with several major product lines.
- Liaison between R&D and Manufacturing groups including product transfer and project management to ensure delivery in accordance with specifications.

Vector Laboratories **2008 – 2011**
Scientist
- Expert in troubleshooting protein purification, modification and bioconjugation methods for production.
- Strategically planned and executed process development for scale-up of manufacturing methods.
- Implemented electronic manufacturing record database.

James EMBAR Research Institute **2006 – 2008**
Scientist
- Consistently drove innovations of a novel light-based technology to the US and European medical device market
- Co-ordinated scientific writing, supervised regulatory and manufacturing outsourcing and financial organization.

Vector Laboratories **1997 – 1999**
Antibody Production Manager
- Ensured compliance with established procedures by managing several employees maintaining antibody inventories.
- Led troubleshooting and product development in accordance with timeline and specifications.
- Implemented and managed production database.

Vector Laboratories **1995 – 1997**
Production Technician
- Successfully conducted large-scale antibody and lectin purification, characterization, and conjugation.
- Maintained quality delivery through timeline and troubleshooting of problem products.

EDUCATION

- **Negotiation and Influence Program** **2021**
  Haas School of Business, UC Berkeley
- **Leadership Edge** **2016**
  Laboratory to Leadership Course
- **UC Berkeley Extension** **2016**
  Project Management Course
- **University of Massachusetts Medical School** **2000 – 2006**
  Doctorate of Philosophy, Biomedical Sciences
- **California Polytechnic State University,** San Luis Obispo **1994**
  Bachelor of Science, Biochemistry

PUBLICATIONS AND AWARDS

- **E47 is required for V(D)J recombinase activity in common lymphoid progenitors.** Borghesi L, Aites J, Nelson S, Lefterov P, James P, Gerstein R. J Exp Med. 2005 Dec 19;202(12):1669-77

- Best Poster Award, UMass IVP Retreat, Newport, RI, 2004
- Invited Speaker, UMass Research Retreat, Wood's Hole, MA, 2003
- Immunology Training Grant, 2002
