MURIEL C. MAURER
Department of Chemistry
University of Louisville
Louisville, KY 40292
(502) 852-7008
email: muriel.maurer@louisville.edu

EDUCATION

Ph.D. Chemistry, University of Virginia, Charlottesville, Virginia, January 1993
Dissertation: Characterization of Ca^{2+} and Substrate Binding Sites on Protein Kinase C Isozymes α and β Using Kinetic and Magnetic Resonance Methods.
B.A. Chemistry, Goucher College, Towson, Maryland, May 1987.
Graduated with general honors and honors in Chemistry, American Chemical Society certification

ACADEMIC HONORS

- NIH Post-Doctoral Fellowship, Cornell University, Nov. 1992- Nov 1995.
- DuPont Fellowship, University of Virginia, Fall 1989 - Spring 1990.
- Stimson-Duvall Fellowship for Graduate Work, Goucher College, May 1987.
- Maryland Section American Chemical Society Student Award, April 1987.
- Phi Beta Kappa**,** April 1987.

RESEARCH EXPERIENCE

Professor, Chemistry Department, University of Louisville, Louisville, KY (2008-)
Chemistry Department Vice-Chair (2012-2015, 2019-2020)
2020 Distinguished Faculty Award (College of Arts & Sciences and the University)
Outstanding Scholarship, Research, and Creative Activity at University of Louisville
Honorary Senior Research Fellow, University of Leeds, Leeds, UK (Sabbatical Fall 2007)
Visiting Scientist, University of Maryland, Baltimore (Sabbatical Fall 2017)
Associate Professor, Chemistry Department, University of Louisville, Louisville, KY (2003-2008)
Assistant Professor, Chemistry Department, University of Louisville, Louisville, KY (1997-2003)

- Activation, conformational properties, and substrate specificity of blood coagulation enzymes
- Structural and kinetic basis behind the activation of Factor XIII by thrombin
  Factor XIII V34L, a common polymorphism within the activation peptide region, serves as a model system for these studies. HPLC assays, SDS-PAGE, NMR, and scanning electron microscopy.
- Kinetic ranking of glutamine-containing substrates that are cross-linked by Factor XIIIa (proteolytic vs nonproteolytic activation states) using mass spectrometry, NMR, and fluorescence.
- Examining the functional and structural properties of fibrinogen αC by mass spec and NMR
- Monitoring how the oligomeric state of Factor XIII changes upon activation using analytical ultracentrifugation, non-denaturing gels, and size-exclusion chromatography.
- Probing conformational features of Factor XIII by amide proton H/D exchange coupled with mass spectrometry (HDX-MS) and by chemical modification methods.
- Probing interactions between thrombin exosites and peptide ligands using NMR and HDX-MS

Research Associate, Department of Chemistry, Cornell University, Ithaca, NY (1996 - 1997).
Post-doctoral Fellow/Associate (1992-1996) Advisor: Dr. Harold Scheraga

- Investigation of the specificity of interaction between fibrinogen and thrombin. Emphasis was placed on fibrinogen Aα-like peptides and phosphorylated fibrinopeptide A.

Ph.D. Dissertation, Depts. of Chemistry and Pharmacology, University of Virginia, Charlottesville, Virginia. (1987-1992) Advisors: Dr. Charles Grisham and Dr. Julianne Sando

- Characterization of Ca^{2+} and substrate (nucleotide and peptide) binding sites on Protein Kinase C isozymes and developed a model describing the individual properties of the sites.

MURIEL C. MAURER

RESEARCH FUNDING

National Institutes of Health: Heart, Lung, and Blood Institute R15 HL120068
Title: Fibrin Clot Architecture Regulated by Factor XIII
Dates of Award 08/01/19 – 7/31/22
PI: Muriel Maurer Awarded Funds: $442,229
Funded via no-cost extension mechanism
Dates of Award: 08/01/16 – 07/31/19
PI: Muriel Maurer Awarded Funds: $442, 864
Dates of Award: 08/05/13 – 07/31/16
PI: Muriel Maurer Awarded Funds: $410,973

National Institutes of Health: Heart, Lung, and Blood Institute R01 HL68440
Title: Factor XIII Activation and Substrate Specificity
Dates of Award: 06/01/06-05/31/11, no-cost extension to 2013
PI: Muriel Maurer Awarded Funds: $1,261,204
Dates for Award: 07/02-06/06
PI: Muriel Maurer Awarded Funds: $840,800

American Heart Association: Southern & Ohio Valley Affiliate Grant-in-Aid
Title: Thrombin Activation of Factor XIII Examined by Kinetic and NMR Methods
Dates for Award: 07/01/01 – 06/30/03 (extension to 2004)
PI: Muriel Maurer Awarded Funds: $110,000

National Science Foundation (Course, Curriculum, Laboratory Improvement: Adaption & Implementation)
Title: "Undergraduate Chemistry Enrichment in Contemporary Biochemistry"
Dates for Award: 06/01/99 – 07/01/01
PI: Muriel Maurer Awarded Funds: $71,245 (NSF) + $71,245 (U of L)
Co-PI's: R.J. Wittebort, G.R. Pack

American Heart Association, KY Affiliate, Beginning Grant-in-Aid Award
Title: Examining the Structural Basis Behind the Substrate Specificity of the Blood Clotting Enzyme Factor XIII
Dates for Award: 07/01/98 - 07/01/00 Extension to 07/01/01
PI: Muriel Maurer Awarded Funds: $60,000

TEACHING EXPERIENCE

Assistant, Associate, Full Professor, Chemistry Department, University of Louisville, Louisville, KY

Chem 546, Biochemistry Laboratory, Spring 2000-2009, Fall 2009-2016, 2018-

Chem 547/647, Biochemistry II, Spring 2010 – 2020, Spring 2022 –

Chem 445, Survey of Biochemistry, Fall 1997-2001, 2003-2006, 2008-2009.

Chem 105, Chemistry for the Health Profession, Spring 1999

MURIEL C. MAURER

MENTORING OF GRADUATE AND UNDERGRADUATE STUDENTS

Past Graduate Students
Ph.D. Degrees: 12 students
M.S. Degrees: 2 students
Current Students: 2 Ph.D. students
Undergraduate Researchers 38 undergraduate students in Maurer Lab (25 F, 13 M)

DEPARTMENTAL AND UNIVERSITY SERVICE

Vice-Chair of Chemistry Department	2012-2015, 2019-2020
Curriculum Committee (Serving as Member or Chair)	1997-2012, 2014-2020, 2022-
Personnel Committee (Serving as Member or Chair)	2004-2007, 2010-2012, 2020-23
Lab Fee Committee (fee structure & teaching lab equip purchases)	2008-2020
Staff Search Committee for NMR Manager	1999
Faculty Search Committees	2008-2010, 2014-2016
Faculty Search Committee with training as *Diversity Advocate*	2019
UofL Arts & Sciences student exchange program w/ ENSCM École Nationale Supérieure de Chimie de Montpellier, France	2016
IMD3 Institute for Molecular Diversity and Drug Design Travel Award	2002-2011, 2013-2018
EVPRI Grant Review Panel Member	2018, 2019
A&S Departmental Teaching Evaluation Program (DTEP)	2021-2022

PROFESSIONAL SERVICE ACTIVITIES

National Institutes of Health (NIH) Research Grant Application Reviewer:
Term appointment for NIH Hemostasis & Thrombosis (HT) Study Section, 2005-2009
NIH Program Project Grant Reviews, NIH AREA R15 Grant Reviews,
Other Grant Reviews:
NIH Hematology Small Business Special Emphasis Panel, NIH HT Adhoc Reviewer, NSF (CRIF, MRI), Welcome Trust UK, Diabetes UK, Swiss National Science Foundation, Hungarian Scientific Research Fund, Deutsche Forschungsgemeinschaft (DFG) German Research Foundation, Research Corporation,

Journal Reviewer: Biochemistry, Journal of Biological Chemistry, PNAS, Blood, Journal of Thrombosis and Haemostasis, Thrombosis & Haemostasis, Nature Scientific Reports, Biochimica Biophysica Acta, Analytical Chemistry, Analytical Biochemistry

Advisory Editorial Board: Biophysical Chemistry (2004-2018)

Service in Professional Organizations:
Board of Councilors for International Fibrinogen Research Society (2018-2024)
Fibrinogen and Factor XIII Scientific and Standardization Committee (SCC) (2006-2011, Co-Chair)
Member of International Society of Thrombosis & Haemostasis (ISTH)
Member International Fibrinogen Research Society

Advisory Board or Theme Committee Member for International Conferences
XXIX Congress of the International Society of Thrombosis and Haemostasis: Philadelphia, 2021
21st International Congress of International Society for Fibrinolysis & Proteolysis, Brighton, UK, 2012
XXII Congress of the International Society of Thrombosis and Haemostasis: Boston, 2009
