The human *O*-GlcNAcome database and meta-analysis

E Wulff-Fuentes, RR Berendt, L Massman, L Danner… - Scientific data, 2021 - nature.com

Abstract Over the past 35 years,~ 1700 articles have characterized protein O-GlcNAcylation. Found in almost all living organisms, this post-translational modification of serine and …

Highly accurate carbohydrate-binding site prediction with DeepGlycanSite

X He, L Zhao, Y Tian, R Li, Q Chu, Z Gu… - Nature …, 2024 - nature.com

As the most abundant organic substances in nature, carbohydrates are essential for life. Understanding how carbohydrates regulate proteins in the physiological and pathological …

Virus-receptor interactions of glycosylated SARS-CoV-2 spike and human ACE2 receptor

P Zhao, JL Praissman, OC Grant, Y Cai, T Xiao… - Cell host & …, 2020 - cell.com

The SARS-CoV-2 betacoronavirus uses its highly glycosylated trimeric Spike protein to bind to the cell surface receptor angiotensin converting enzyme 2 (ACE2) glycoprotein and …

Glycoinformatics in the artificial intelligence era

D Bojar, F Lisacek - Chemical Reviews, 2022 - pmc.ncbi.nlm.nih.gov

Artificial intelligence (AI) methods have been and are now being increasingly integrated in prediction software implemented in bioinformatics and its glycoscience branch known as …

The structure and function of YTHDF epitranscriptomic m6A readers

V Sikorski, S Selberg, M Lalowski, M Karelson… - Trends in …, 2023 - cell.com

Specific RNA sequences modified by a methylated adenosine, N 6-methyladenosine (m 6 A), contribute to the post-transcriptional regulation of gene expression. The quantity of m 6 A …

Current Methods for the Characterization of *O*-Glycans

H Wilkinson, R Saldova - Journal of proteome research, 2020 - ACS Publications

Glycosylation is crucial in cellular metabolism and survival. Of interest is the role of N-linked and O-linked glycans in disease states. Robust analytical methods must be defined to …

Comprehensive characterization of N-and O-glycosylation of SARS-CoV-2 human receptor angiotensin converting enzyme 2

A Shajahan, S Archer-Hartmann, NT Supekar… - …, 2021 - academic.oup.com

The emergence of the coronavirus disease 2019 (COVID-19) pandemic caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) has created the need for …

The GlyCosmos Portal: a unified and comprehensive web resource for the glycosciences

I Yamada, M Shiota, D Shinmachi, T Ono, S Tsuchiya… - Nature …, 2020 - nature.com

To the Editor—We present the GlyCosmos Glycoscience Portal (https://glycosmos. org), an integrated web resource for accessing glycoscience data derived from a variety of disparate …

Defining the mechanism of galectin-3–mediated TGF-β1 activation and its role in lung fibrosis

JF Calver, NR Parmar, G Harris, RM Lithgo… - Journal of Biological …, 2024 - jbc.org

Integrin-mediated activation of the profibrotic mediator transforming growth factor-β1 (TGF-β1), plays a critical role in idiopathic pulmonary fibrosis (IPF) pathogenesis. Galectin-3 is …

RCSB Protein Data Bank: Celebrating 50 years of the PDB with new tools for understanding and visualizing biological macromolecules in 3D

SK Burley, C Bhikadiya, C Bi, S Bittrich, L Chen… - Protein …, 2022 - Wiley Online Library

Abstract The Research Collaboratory for Structural Bioinformatics Protein Data Bank (RCSB PDB), funded by the US National Science Foundation, National Institutes of Health, and …
