Thrombin-A Molecular Dynamics Perspective

D Wu, A Prem, J Xiao… - Mini Reviews in Medicinal …, 2024 - benthamdirect.com

Thrombin is a crucial enzyme involved in blood coagulation, essential for maintaining circulatory system integrity and preventing excessive bleeding. However, thrombin is also …

Modulating hydrogen-bond basicity within the context of protein-ligand binding: A case study with thrombin inhibitors that reveals a dominating role for desolvation

NN Nasief, AM Said, D Hangauer - European Journal of Medicinal …, 2017 - Elsevier

Understanding subtle aspects of hydrogen bonding is a challenging but crucial task to improve our ability to design ligands with high affinity for protein hosts. To gain a deeper …

Graphene oxide modified with aptamer-conjugated gold nanoparticles and heparin: a potent targeted anticoagulant

YH So, HT Chang, WJ Chiu, CC Huang - Biomaterials science, 2014 - pubs.rsc.org

Graphene oxide (GO) modified with 29-mer thrombin-binding-aptamer-conjugated gold nanoparticles (TBA29–Au NPs/GO) can synergistically inhibit the thrombin-mediated …

Rapid magnetic solid-phase extraction combined with ultra-high performance liquid chromatography and quadrupole-time-of-flight mass spectrometry for analysis of …

Y Tao, Y Jiang, W Li, B Cai - RSC advances, 2016 - pubs.rsc.org

Thrombin, which acts as a serine protease that converts soluble fibrinogen into insoluble strands of fibrin, plays crucial roles in the blood coagulation pathway. Inhibition of thrombin …

An Overview of Thrombin Inhibitors in the Perspective of Structureactivity Relationships

J Wang, X Sun, N Li, R Sheng… - Current Medicinal …, 2023 - benthamdirect.com

Thrombosis is one of the most important pathogenic factors related to cardiovascular diseases. Presently, thrombin inhibitors have gradually gained prominence in clinical …

Enzymatic and chemical synthesis of new anticoagulant peptides

A Origone, G Bersi, A Illanes, H Sturniolo… - Biotechnology …, 2018 - Wiley Online Library

In this study we report the enzymatic synthesis of N-α-[Carbobenzyloxy]-Tyr-Gln-Gln (Z-YQQ), a new anticoagulant tripeptide. It was obtained using phytoproteases from the stems …

Conformation based in silico studies of cyclic tetrapeptides with βγ fused turns as thrombin inhibitors

U Ghosh, V Kumar, G Singh… - …, 2023 - Wiley Online Library

The enormous social and economic consequences of thrombotic diseases, as well as the significant dangers associated with present medications, need the development of more …

Prolinamide derivatives as thrombin inhibitors for the treatment of thrombin-mediated diseases: a patent evaluation of US2013296245

ZH Shi, NG Li, YP Tang, JA Duan - Expert Opinion on Therapeutic …, 2014 - Taylor & Francis

Introduction: Thrombotic disorders can lead to deep vein thrombosis, myocardial infarction and stroke. Thrombin plays a vital role in cascade reaction of blood coagulation, inhibition of …

Small Molecule Modulators of Protease-Activated Receptor-I

JT DeRousse - 2023 - search.proquest.com

Protease-activated receptors (PARs) are a unique family of G Protein-Coupled Receptors (GPCRs) that are activated through the proteolytic cleavage of their N-terminus. This forms a …

Actividad antitrombótica de proteínas de amaranto

AC Sabbione - 2015 - sedici.unlp.edu.ar

Con el fin de obtener conocimientos que sirvan de aporte para futuros desarrollos de alimentos funcionales que contengan a las proteínas de amaranto como uno de sus …
