Involvement of N-glycans in binding of *Photorhabdus luminescens* Tc toxin

PN Ng'ang'a, L Siukstaite, AE Lang… - Cellular …, 2021 - Wiley Online Library

Photorhabdus luminescens Tc toxins are large tripartite ABC-type toxin complexes, composed of TcA, TcB and TcC proteins. Tc toxins are widespread and have shown a …

Glycan-binding specificities of anti-ABO (H) antibodies and lectins

P Hamm, AY Mehta, KM Charon… - …, 2026 - Wiley Online Library

Background ABO blood type is critically important for blood transfusion and organ transplantation. Blood group reactive glycan-binding proteins are used as reagents in …

Metabolite multiprobiotic formulas for microbial health

MV Lakhtin, VM Lakhtin, VA Aleshkin… - Oral health by using …, 2019 - intechopen.com

On example of Lactobacillus and Bifidobacterium strains, approaches in creation of human multistrain probiotic metabolite mixtures for different goals were proposed. Human probiotic …

GlyMDB: glycan microarray database and analysis toolset

Y Cao, SJ Park, AY Mehta, RD Cummings, W Im - Bioinformatics, 2020 - academic.oup.com

Motivation Glycan microarrays are capable of illuminating the interactions of glycan-binding proteins (GBPs) against hundreds of defined glycan structures, and have revolutionized the …

Lectin fingerprinting distinguishes antibody neutralization in SARS-CoV-2

MG Wuo, AE Dugan, M Halim, BM Hauser… - ACS Central …, 2023 - pmc.ncbi.nlm.nih.gov

Enveloped viruses co-opt host glycosylation pathways to decorate their surface proteins. As viruses evolve, emerging strains can modify their glycosylation patterns to influence host …

SARS-CoV-2 and other coronaviruses bind to phosphorylated glycans from the human lung

L Byrd-Leotis, Y Lasanajak, T Bowen, K Baker, X Song… - Virology, 2021 - Elsevier

Abstract SARS-CoV, MERS-CoV, and potentially SARS-CoV-2 emerged as novel human coronaviruses following cross-species transmission from animal hosts. Although the …

Glycan-mediated interactions of infectious hypodermal and hematopoietic necrosis virus (IHHNV) with host tissues in Pacific whiteleg shrimp (*Penaeus vannamei)*

C Sombutkayasith, A Watthammawut… - …, 2026 - academic.oup.com

Infectious hypodermal and hematopoietic necrosis virus (IHHNV) poses a significant threat to global shrimp aquaculture, causing substantial economic losses due to Runt Deformity …

An automated fast healthcare interoperability resources-based 12-lead electrocardiogram mobile alert system for suspected acute coronary syndrome

S Hur, J Lee, T Kim, JS Choi, M Kang… - Yonsei medical …, 2020 - pmc.ncbi.nlm.nih.gov

Purpose For patients with time-critical acute coronary syndrome, reporting electrocardiogram (ECG) findings is the most important component of the treatment process …

Comparative phenotyping of surface markers and glycans in murine and human platelet-derived extracellular vesicles

O An, F Reusswig, V Krenzlin, C Deppermann… - Research and Practice …, 2026 - Elsevier

Background Platelet-derived extracellular vesicles (PEVs, 100-1000nm in size) are released from activated platelets. They are important carriers of signaling molecules, lipids and …

CarbArrayART: a new software tool for carbohydrate microarray data storage, processing, presentation, and reporting

Y Akune, S Arpinar, LM Silva, AS Palma… - …, 2022 - academic.oup.com

Glycan microarrays are essential tools in glycobiology and are being widely used for assignment of glycan ligands in diverse glycan recognition systems. We have developed a …
