Insights into glycobiology and the protein-glycan interactome using glycan microarray technologies

J Heimburg-Molinaro, AY Mehta, CA Tilton… - Molecular & Cellular …, 2024 - mcponline.org

Glycans linked to proteins and lipids and also occurring in free forms have many functions, and these are partly elicited through specific interactions with glycan-binding proteins …

Glycan microarrays as chemical tools for identifying glycan recognition by immune proteins

C Gao, M Wei, TR McKitrick, AM McQuillan… - Frontiers in …, 2019 - frontiersin.org

Glycans and glycan binding proteins (GBPs or lectins) are essential components in almost every aspect of immunology. Investigations of the interactions between glycans and GBPs …

Blood group A enhances SARS-CoV-2 infection

SC Wu, CM Arthur, HM Jan, WF Garcia-Beltran… - Blood, 2023 - ashpublications.org

Among the risk factors for severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), ABO (H) blood group antigens are among the most recognized predictors of infection …

Recent advances in glycoinformatic platforms for glycomics and glycoproteomics

JL Abrahams, G Taherzadeh, G Jarvas… - Current opinion in …, 2020 - Elsevier

Highlights•Recent advancements in glycoinformatics tools to support analysis of glycan and glycopeptide data sets are summarised.•Review summarises the growth of machine …

Big-data glycomics: tools to connect glycan biosynthesis to extracellular communication

BP Kellman, NE Lewis - Trends in biochemical sciences, 2021 - cell.com

Characteristically, cells must sense and respond to environmental cues. Despite the importance of cell–cell communication, our understanding remains limited and often lacks …

Development of lamprey-derived antibodies against human blood group antigens

PB Kunz, EKC Tulin, AY Mehta, T Jia… - …, 2025 - academic.oup.com

A major challenge in the glycosciences is the scarcity of sensitive and specific glycan-binding reagents, such as monoclonal antibodies, for detecting and isolating glycans. Here …

2019–2020 H1N1 clade A5a. 1 viruses have better in vitro fitness compared with the co-circulating A5a. 2 clade

NJ Swanson, P Marinho, A Dziedzic, A Jedlicka… - Scientific reports, 2023 - nature.com

Surveillance for emerging human influenza virus clades is important for identifying changes in viral fitness and assessing antigenic similarity to vaccine strains. While fitness and …

Development of smart anti-glycan reagents using immunized lampreys

TR McKitrick, CK Goth, CS Rosenberg… - Communications …, 2020 - nature.com

Studies on the expression of cellular glycans are limited by a lack of sensitive tools that can discriminate specific structural features. Here we describe the development of a robust …

Worldwide glycoscience informatics infrastructure: the GlySpace Alliance

F Lisacek, M Tiemeyer, R Mazumder… - JACS Au, 2023 - ACS Publications

Abstract The GlySpace Alliance was formed in 2018 among the principal investigators of three major glycoscience portals: Glyco@ Expasy, GlyCosmos, and GlyGen, representing …

Databases and bioinformatic tools for glycobiology and glycoproteomics

X Li, Z Xu, X Hong, Y Zhang, X Zou - International Journal of Molecular …, 2020 - mdpi.com

Glycosylation plays critical roles in various biological processes and is closely related to diseases. Deciphering the glycocode in diverse cells and tissues offers opportunities to …
