The research progress of direct thrombin inhibitors

ZG Sun, JM Zhang, SC Cui, ZG Zhang… - Mini Reviews in …, 2020 - benthamdirect.com

Blood coagulation is the process of changing the blood from the flowing state to the gel state. It is an important part of the hemostatic function. Coagulation is a process by which a …

Fully Synthetic Non-Carbohydrate Heparin Mimetics—Perspectives for Therapeutic Anticoagulation and Beyond?

K Nekipelov, V Ferro, G Bendas - Archiv der Pharmazie, 2026 - Wiley Online Library

Heparin is one of the oldest drugs on the market. Although clinically well established as an anticoagulant for decades, owing to its natural origin and heterogeneous …

Microwave and continuous flow technologies in drug discovery

S Sadler, AR Moeller, GB Jones - Expert opinion on drug discovery, 2012 - Taylor & Francis

Introduction: Microwave and continuous flow microreactors have become mainstream heating sources in contemporary pharmaceutical company laboratories. Such technologies …

A small group of sulfated benzofurans induces steady-state submaximal inhibition of thrombin

DK Afosah, S Verespy III, RA Al-Horani… - Bioorganic & Medicinal …, 2018 - Elsevier

Despite the development of promising direct oral anticoagulants, which are all orthosteric inhibitors, a sizable number of patients suffer from bleeding complications. We have …

Potent direct inhibitors of factor Xa based on the tetrahydroisoquinoline scaffold

RA Al-Horani, AY Mehta, UR Desai - European journal of medicinal …, 2012 - Elsevier

Direct inhibition of coagulation factor Xa (FXa) carries significant promise for developing effective and safe anticoagulants. Although a large number of FXa inhibitors have been …

Targeting the GPIbα binding site of thrombin to simultaneously induce dual anticoagulant and antiplatelet effects

AY Mehta, JN Thakkar, BM Mohammed… - Journal of medicinal …, 2014 - ACS Publications

Exosite 2 of human thrombin contributes to two opposing pathways, the anticoagulant pathway and the platelet aggregation pathway. We reasoned that an exosite 2 directed …

Development of orally active thrombin inhibitors for the treatment of thrombotic disorder diseases

LW He, WC Dai, NG Li - Molecules, 2015 - pmc.ncbi.nlm.nih.gov

Thrombotic disorders represent the major share of the various cardiovascular diseases, and significant progress has been made in the development of synthetic thrombin inhibitors as …

Multisubstituted benzo [b] furans through a copper-and/or palladium-catalyzed assembly and functionalization process

A Arcadi, F Blesi, S Cacchi, G Fabrizi, A Goggiamani… - Tetrahedron, 2013 - Elsevier

Full details as well as the study of the scope, limitations, and further elaboration of a straightforward approach to the synthesis of 2, 5, 7-trisubstituted benzo [b] furans from 2 …

Plasmin regulation through allosteric, sulfated, small molecules

RA Al-Horani, R Karuturi, DT White, UR Desai - Molecules, 2015 - mdpi.com

Plasmin, a key serine protease, plays a major role in clot lysis and extracellular matrix remodeling. Heparin, a natural polydisperse sulfated glycosaminoglycan, is known to …
