Broad-Spectrum Legionaminic Acid-Specific Antibodies in Pooled Human IgGs Revealed by Glycan Microarrays with Chemoenzymatically Synthesized …

AS Kooner, H Yu, S Leviatan Ben-Arye… - Molecules, 2024 - mdpi.com

The presence and the level of antibodies in human sera against bacterial glycans are indications of prior encounters with similar antigens and/or the bacteria that express them by …

Application of the antibody-inducing activity of glycosphingolipids to human diseases

T Okuda - International Journal of Molecular Sciences, 2021 - mdpi.com

Glycosphingolipids (GSLs) are composed of a mono-, di-, or oligosaccharide and a ceramide and function as constituents of cell membranes. Various molecular species of …

Some Human Anti-Glycan Antibodies Lack the Ability to Activate the Complement System

N Shilova, A Nokel, A Lipatnikov, N Khasbiullina… - Antibodies, 2024 - mdpi.com

Background. Naturally occurring human antibodies against glycans recognize and quickly eliminate infectious bacteria, viruses and aberrantly glycosylated neoplastic malignant cells …

Effect of duck interferon-α and an anti-cap protein polyclonal antibody against duck circovirus

M Shen, S Zhang, Y Mao, C Wang, P Gao, N Li… - Microbial …, 2023 - Elsevier

Duck circovirus (DuCV) is one of the most prevalent viruses in the duck breeding industry, and causes persistent infection and severe immunosuppression. Currently, there is a …

Untersuchung von Anti-Glykan-Antikörpern und Erforschung ihres medizinischen Potenzials mithilfe synthetischer Glykane

F Weber, A Valenti, J Ledvinka, O Moscovitz… - Angewandte …, 2026 - Wiley Online Library

ZUSAMMENFASSUNG Die dynamische Glykan-Schicht, die menschliche und mikrobielle Zellen umgibt, spielt eine wesentliche Rolle für die Fähigkeit des Immunsystems …

Polysaccharide epitopes recognized by human α-l-Rha antibodies

NV Shilova, PS Obukhova, YA Knirel… - Carbohydrate …, 2025 - Elsevier

The levels of antibodies in human blood binding to the monosaccharide α-l-Rha are the highest among all anti-glycan antibodies. Moreover, anti-Rha antibodies are found in all …

The Use of the Neoglycolipid-Based Oligosaccharide Microarray System in the Diagnosis of Endometriosis–Preliminary Study

C Wojtyla, I Tołwiński, P Laudański - Journal of Inflammation …, 2024 - Taylor & Francis

Objective Endometriosis presents diagnostic challenges, and there is a need for developing novel biomarkers with satisfactory specificity and sensitivity. Glycomics, exploring …

Human Anti-Glycan Reactivity is Driven by the Selection of B cells Utilizing Private Antibody Gene Rearrangements that are Affinity Maturated in Germinal …

JS New, CF Fucile, AR Callahan, JN Burke… - …, 2024 - pmc.ncbi.nlm.nih.gov

The human antibody repertoire is broadly reactive with carbohydrate antigens represented in the universe of all living things, including both the host/self-as well as the commensal …

Use of a glycomics array to establish the anti-carbohydrate antibody repertoire in type 1 diabetes

PMH Tran, F Dong, E Kim, KP Richardson… - Nature …, 2022 - nature.com

Abstract Type 1 diabetes (T1D) is an autoimmune disease, characterized by the presence of autoantibodies to protein and non-protein antigens. Here we report the identification of …
