A periodic table of monosaccharides

RD Cummings - Glycobiology, 2024 - academic.oup.com

It is important to recognize the great diversity of monosaccharides commonly encountered in animals, plants, and microbes, as well as to organize them in a visually interesting style that …

Hypoxia-induced adaptations of N-glycomes and proteomes in breast cancer cells and their secreted extracellular vesicles

B Peng, K Bartkowiak, F Song, P Nissen… - International journal of …, 2024 - mdpi.com

The hypoxic tumor microenvironment significantly impacts cellular behavior and intercellular communication, with extracellular vesicles (EVs) playing a crucial role in promoting …

Glycosylation changes in prostate cancer progression

W Butler, J Huang - Frontiers in oncology, 2021 - frontiersin.org

Prostate Cancer (PCa) is the most commonly diagnosed malignancy and second leading cause of cancer-related mortality in men. With the use of next generation sequencing and …

AquIRE reveals the mechanisms of clinically induced RNA damage and the conservation and dynamics of glycoRNAs

Z Zhang, ZV Kotopanova, K Dang, X Kong… - Nucleic acids …, 2026 - academic.oup.com

RNA is subject to many modifications, from small chemical changes like methylation to conjugation of biomolecules such as glycans. As well as endogenously written …

GlycoDraw: a python implementation for generating high-quality glycan figures

J Lundstrøm, J Urban, L Thomès, D Bojar - Glycobiology, 2023 - academic.oup.com

Glycans are essential to all scales of biology, with their intricate structures being crucial for their biological functions. The structural complexity of glycans is communicated through …

Identification of the D-glucuronyl C5-epimerase that introduces iduronic acid into N-linked glycans decorating archaeal glycoproteins

Z Vershinin, M Zaretsky, A Notaro, D Yu… - Communications …, 2025 - nature.com

In Halobacterium salinarum, halophilic archaea that grow in saturated salt solutions, glycoproteins are modified by an N-linked tetrasaccharide that includes iduronic acid (IdoA) …

Protein glycosylation and glycoinformatics for novel biomarker discovery in neurodegenerative diseases

J Costa, C Hayes, F Lisacek - Ageing research reviews, 2023 - Elsevier

Glycosylation is a common post-translational modification of brain proteins including cell surface adhesion molecules, synaptic proteins, receptors and channels, as well as …

Are They Connected? Liquid-State NMR Spectroscopy of Chitinous Materials

C Van Poucke, S Mangelinckx, CV Stevens - Biomacromolecules, 2026 - ACS Publications

Since the resurgence of interest in chitinous materials in the 1970s, significant efforts have been devoted to their utilization and valorization. With the availability of ISO 13485-certified …

Anti-glycan antibodies: roles in human disease

JS Temme, DL Butler, JC Gildersleeve - Biochemical Journal, 2021 - portlandpress.com

Carbohydrate-binding antibodies play diverse and critical roles in human health. Endogenous carbohydrate-binding antibodies that recognize bacterial, fungal, and other …

Novel fold of rotavirus glycan-binding domain predicted by AlphaFold2 and determined by X-ray crystallography

L Hu, W Salmen, B Sankaran, Y Lasanajak… - Communications …, 2022 - nature.com

The VP8* domain of spike protein VP4 in group A and C rotaviruses, which cause epidemic gastroenteritis in children, exhibits a conserved galectin-like fold for recognizing glycans …
