Synthesis and interaction with growth factors of sulfated oligosaccharides containing an anomeric fluorinated tail

JL de Paz, MJ García-Jiménez, V Jafari… - Bioorganic …, 2023 - Elsevier

Compounds that mimic the biological properties of glycosaminoglycans (GAGs) and can be more easily prepared than the native GAG oligosaccharides are highly demanded. Here, we …

Heparan sulfate proteoglycans in pathological protein aggregation and brain functionality

J Melrose, MM Smith - Advanced Neurology, 2024 - article.accscience.com

Proteoglycans are highly specialized proteins with specific interactive modules in their core proteins, allowing them to engage with a diverse range of cellular and structural proteins …

Amide Couplings of Sugar Amino Acids and their Sulfates: Toward Heparan Sulfate Mimetics

D Phipps - 2025 - openaccess.wgtn.ac.nz

Heparan sulfate (HS) is a sulfated glycosaminoglycan with huge therapeutic potential. It is produced by all animal cells and plays roles in many cell signalling, regulatory, and …

Effect of Structural Changes in Marine Derived Sulphated Polysaccharides on Growth Factor Binding and Cellular Responses

VHL Nguyen - 2024 - rest.mars-prod.its.unimelb.edu.au

Glycosaminoglycans (GAGs) are components of the extracellular matrix that control physiological processes in cells and tissues. Heparan sulphate (HS) is a GAG known for its …

Synthesis of the Key Saccharide Fragments of the Glucuronic Acid-Containing Repeat Unit of Pentosan Polysulfate, a Heparin Sulfate Mimetic

MG Banwell, S Marshall, JS Ward, BD Schwartz - SynOpen, 2023 - thieme-connect.com

Suitably protected mono-and di-saccharide residues associated with the glucuronic acid-containing repeat unit related to pentosan polysulfate have been prepared. The stereo …

Spaced heparinoids: a new class of heparin-like molcules

S Nadji, REN Yingjie, L Fan, R Dhar - US Patent App. 18/632,623, 2025 - Google Patents

This invention relates to compositions comprising heparin-like oligosaccharides with defined structures that are covalently connected together at a precise distance from each other by …

The role of glycan modifications in health and disease

MD Bergers, TA Goté, Z Armstrong - Trends in Biochemical Sciences, 2026 - cell.com

Glycans are polymeric carbohydrate chains that often decorate proteins and lipids present on cell surfaces and in the extracellular space, thereby influencing cell interactions, immune …
