Glycan-mediated interactions of infectious hypodermal and hematopoietic necrosis virus (IHHNV) with host tissues in Pacific whiteleg shrimp (*Penaeus vannamei)*

C Sombutkayasith, A Watthammawut… - …, 2026 - academic.oup.com

Infectious hypodermal and hematopoietic necrosis virus (IHHNV) poses a significant threat to global shrimp aquaculture, causing substantial economic losses due to Runt Deformity …

Unveiling the molecular basis of Pleurocybella porrigens lectin (PPL)–glycan recognition by NMR and X-ray crystallography

A Marseglia, G Tito, G Ferraro, A Molinaro… - International Journal of …, 2026 - Elsevier

Lectins of the R-type superfamily recognize specific glycan motifs through β-trefoil carbohydrate-binding domains and play central roles in cell communication, immunity, and …

Targets for the diagnosis of *Acanthamoeba* eye infections include four cyst wall proteins and the mannose-binding domain of the trophozoite mannose-binding …

B Kanakapura Sundararaj, M Goyal, J Samuelson - Msphere, 2025 - journals.asm.org

Acanthamoebae, which are free-living amoebae, cause corneal inflammation (keratitis) and blindness, if not quickly diagnosed and effectively treated. The walls of Acanthamoeba cysts …

ManNAc attenuates Man5 glycoform abundance through GNE-mediated metabolic channeling of UDP-GlcNAc to N-glycosylation modifications via CMP-Neu5Ac …

R Sun, M Chai, J Man, G Yang, H Shu, Q Wang, C Tian… - Mabs, 2025 - Taylor & Francis

ABSTRACT N-glycosylation, a critical quality attribute of monoclonal antibodies, plays a pivotal role in regulating pharmacokinetics and pharmacodynamics through high-mannose …

Untersuchung von Anti-Glykan-Antikörpern und Erforschung ihres medizinischen Potenzials mithilfe synthetischer Glykane

F Weber, A Valenti, J Ledvinka, O Moscovitz… - Angewandte …, 2026 - Wiley Online Library

ZUSAMMENFASSUNG Die dynamische Glykan-Schicht, die menschliche und mikrobielle Zellen umgibt, spielt eine wesentliche Rolle für die Fähigkeit des Immunsystems …

Immunoproteomics: The Evolution from Classical Methods to Emerging Techniques

KM Fulton, SM Twine - Immunoproteomics: Methods and Protocols, 2025 - Springer

The dynamic landscape of the adaptive immune response is shaped by peptides presented on the surface of immune cells, originating from viral or microbial pathogens or cancerous …

Regulatory Effects of Zhenxin Formula in Treating Doxorubicin-Induced Heart Failure: Network Pharmacology and Animal Experimental Verification

Q Wu, H Wang, YH Wang, J Du, B Li… - Drug Design …, 2025 - Taylor & Francis

Objective This study aimed to elucidate the mechanisms underlying the protective effects of Zhenxin Formula (ZXF) against doxorubicin (Dox)-induced HF through the integration of …

The Emerging Role of Glycomics in Precision Medicine: Applications in Behavioral Disorders, Infections, and Chronic Diseases

M Chauhan, L Gupta, A Kumar… - Functional …, 2026 - api.taylorfrancis.com

Glycomics, the particularly refers to compendious study of glycans and their associated structures. The emerging field is a wider and promising field in understanding various …

Form and Function in Flux: Molecular Ensembles from Structure to Therapy

R Patarca, WA Haseltine - 2026 - preprints.org

Molecular structure, revealed by crystallography, cryo-electron microscopy, imaging, and prediction, remains foundational to biology and drug design, yet function also depends on …

Identification and structural characterisation of a picornavirus integrin receptor with an essential role of two distinct glycans for virus infection

F van Kuppeveld, C Owino, G Dellosa, R Luteijn… - 2026 - assets-eu.researchsquare.com

Equine rhinitis A virus (ERAV), a picornavirus closely related to foot-and-mouth disease virus, causes respiratory infections in horses. We performed a HEK293T CRISPRi screen …
