Advanced Glycomics Approach for Characterization of IgG Glycan Alterations and Immune Modulation in Traumatic Brain Injury

S Onigbinde, J Solomon, V Sandilya, O Daramola… - Analytica Chimica …, 2026 - Elsevier

Background Traumatic brain injury (TBI) poses significant health challenges, involving complex immune responses and neuroinflammation. In TBI, immunoglobulin G (IgG) plays a …

Glycan Fingerprint of Malignant Pleural Mesothelioma

L Kavur, TS Klarić, N Mraz, N Šimunić-Briški… - International Journal of …, 2026 - mdpi.com

Malignant pleural mesothelioma (MPM) is an aggressive pleural tumor associated with asbestos exposure. Poor clinical outcome of MPM is often driven by late-stage diagnosis …

Attention please: modeling global and local context in glycan structure-function relationships

B Dai, DE Mattox, C Bailey-Kellogg - Biorxiv, 2021 - biorxiv.org

Glycans are found across the tree of life with remarkable structural diversity enabling critical contributions to diverse biological processes, ranging from facilitating host-pathogen …

An evolutionary distinct Nipah G glycosylation site provides stability for receptor engagement

TÉ Hawkins, V Calvaresi, SA Burnap, L Wu, WB Struwe - bioRxiv, 2025 - biorxiv.org

Nipah virus is a deadly paramyxovirus with 40-75% mortality and> 750 cases since 1998. Currently there are no clinically approved vaccines or therapeutics to target infection. Nipah …

Glycan-mediated interactions of infectious hypodermal and hematopoietic necrosis virus (IHHNV) with host tissues in Pacific whiteleg shrimp (*Penaeus vannamei)*

C Sombutkayasith, A Watthammawut… - …, 2026 - academic.oup.com

Infectious hypodermal and hematopoietic necrosis virus (IHHNV) poses a significant threat to global shrimp aquaculture, causing substantial economic losses due to Runt Deformity …

Seminal plasma glycoproteins as potential ligands of lectins engaged in immunity regulation

B Olejnik, M Ferens-Sieczkowska - International Journal of Environmental …, 2022 - mdpi.com

Environmental pollution, chronic stress, and unhealthy lifestyle are factors that negatively affect reproductive potential. Currently, 15–20% of couples in industrialized countries face …

Glycome-Proteome Interactome Cartography via Proximity Tagging

P Tseng, ML Huang - Accounts of Chemical Research, 2025 - ACS Publications

Conspectus Glycans are now recognized as essential biomolecules for life, and an increasing number of investigators and studies continue to reveal the myriad ways in which …

Application of StrucGP in medical immunology: site-specific *N*-glycoproteomic analysis of macrophages

P Li, Z Chen, S You, Y Xu, Z Hao, D Liu, J Shen… - Frontiers of …, 2023 - Springer

The structure of N-glycans on specific proteins can regulate innate and adaptive immunity via sensing environmental signals. Meanwhile, the structural diversity of N-glycans poses …

Programming N-linked glycan composition through de novo protein design

MC Lunn-Halbert, JD Allen, R Krishna, A Manchenko… - bioRxiv, 2026 - biorxiv.org

N-linked glycans are ubiquitous post-translational modifications that mediate diverse biological processes, including cell signaling and adhesion, molecular recognition, and host …

Self-assembled TLR7/8 agonist-mannose conjugate as an effective vaccine adjuvant for SARS-CoV-2 RBD trimer

C Teng, X Meng, Y Hu, H Mao, H Li, J Yang, T Sun… - Polymers, 2022 - mdpi.com

Small synthetic TLR7/8-agonists can be used as vaccine adjuvants to enhance cell and humoral-mediated immune responses to specific antigens. Despite their potency, after local …
