Prevaccination glycan markers of response to an influenza vaccine implicate the complement pathway

R Qin, G Meng, S Pushalkar… - Journal of proteome …, 2022 - pmc.ncbi.nlm.nih.gov

A key to improving vaccine design and vaccination strategy is to understand the mechanism behind the variation of vaccine response with host factors. Glycosylation, a critical modulator …

GlyLES: Grammar-based Parsing of Glycans from IUPAC-condensed to SMILES

R Joeres, D Bojar, OV Kalinina - Journal of cheminformatics, 2023 - Springer

Glycans are important polysaccharides on cellular surfaces that are bound to glycoproteins and glycolipids. These are one of the most common post-translational modifications of …

Mass spectrometry-based glycoproteomic workflows for cancer biomarker discovery

EH Doud, ES Yeh - Technology in Cancer Research & …, 2023 - journals.sagepub.com

Glycosylation has a clear role in cancer initiation and progression, with numerous studies identifying distinct glycan features or specific glycoproteoforms associated with cancer …

Enhanced surface accessibility of SARS-CoV-2 Omicron spike protein due to an altered glycosylation profile

D Wang, Z Zhang, J Baudys, C Haynes… - ACS infectious …, 2024 - pmc.ncbi.nlm.nih.gov

SARS-CoV-2 spike (S) proteins undergo extensive glycosylation, aiding in proper folding, enhancing stability, and evading host immune surveillance. In this study, we used mass …

Glycosylation in Cancer: From Functional Roles to Therapeutic Implications

K Prutisto-Chang, T Batu… - Annual Review of …, 2026 - annualreviews.org

The field of cancer glycobiology aims to understand how aberrant glycosylation contributes to the development of cancer. While the significance of glycosylation to normal and …

Aberrations in the glycosylation of receptor tyrosine kinases: a focus on lung adenocarcinoma

AM Dmitrieva, IG Kocak, L Meder - Cytojournal, 2025 - pmc.ncbi.nlm.nih.gov

Lung cancer is the leading cause of cancer-related deaths worldwide, with genetic-and protein-based diagnostics playing a crucial role in disease detection and improving patient …

The correlation between human seminal plasma sialoproteins and ejaculate parameters

V Palenikova, H Pavlova, D Kraus, Z Kratka… - International Journal of …, 2024 - Elsevier

Sialic acids are negatively charged carbohydrates that are components of saccharide chains covalently linked to macromolecules. Sialylated glycoproteins are important for most …

Editor's Choice JAAG: a JSON input file assembler for AlphaFold 3 with glycan integration

C Huang, KW Moremen - Glycobiology, 2026 - academic.oup.com

Abstract Standalone AlphaFold 3 (AF3) models proteins, post-translational modifications, and ligands (including glycans) from a single JSON input file. Plausible glycan …

The GlycoPaSER prototype as a real-time N-glycopeptide identification tool based on the PaSER parallel computing platform

G Armony, S Brehmer, T Srikumar, L Pfennig… - International Journal of …, 2023 - mdpi.com

Real-time database searching allows for simpler and automated proteomics workflows as it eliminates technical bottlenecks in high-throughput experiments. Most importantly, it enables …

GlyComb: a novel glycoconjugate data repository that bridges glycomics and proteomics

Y Takahashi, M Shiota, A Fujita, I Yamada… - Journal of Biological …, 2024 - jbc.org

The glycosylation of proteins and lipids is known to be closely related to the mechanisms of various diseases such as influenza, cancer, and muscular dystrophy. Therefore, it has …
