From Omics to Multi-Omics: Now What?

CN Hayes, H Nakahara, A Ono, M Tsuge, S Oka - 2024 - preprints.org

Bioinformatics is a rapidly evolving field charged with cataloguing, disseminating, and analyzing biological data. Bioinformatics started with genomics, and the distinction remains …

Charge Matters: How flanking substrate charge and silicates modulate O-glycan biosynthesis

CJ Ballard - 2025 - search.proquest.com

Mucin type O-glycosylation is a ubiquitous and essential form of posttranslational modification of proteins initiated by family of Golgi resident transferases known as the …

Prediction and analysis of drug-glycoprotein interactions with mutual attention neural networks

E Shinkawa, K Nagatsuka, Y Murata… - 2022 Joint 12th …, 2022 - ieeexplore.ieee.org

This paper proposes Drug-Glycoprotein Mutual Attention models, a Glycan Frequency-Mediated Mutual Attention neural network and a Glycan Structure-Mediated Mutual Attention …

Mechanisms of sodium homeostasis in 3 species of freshwater fish exposed to pH 4.0 water

AM Kovac - 2025 - ualberta.scholaris.ca

The uptake and efflux of ions in freshwater environments by teleost fish gills is an important regulatory process to maintain ionic concentration and acid-base balance in the gill cells …

HLA-Glyco: A large-scale interrogation of the glycosylated immunopeptidome

G Bedran, DA Polasky, Y Hsiao, F Yu… - bioRxiv, 2022 - biorxiv.org

MHC-associated peptides (MAPs) bearing post-translational modifications (PTMs) have raised intriguing questions regarding their attractiveness for targeted therapies. Here, we …

Differential expression of glycosyltransferases identified through comprehensive pan-cancer analysis

HM Dingerdissen, J Vora, E Cauley, A Bell, CH King… - bioRxiv, 2021 - biorxiv.org

Despite accumulating evidence supporting a role for glycosylation in cancer progression and prognosis, the complexity of the human glycome and glycoproteome poses many …

Scalable Extraction and Curation of Glycan Biomarker Data From Biomedical Literature Using Large Language Models

CCHA Yeung - 2025 - search.proquest.com

Automated extraction and curation of glycan biomarker data from biomedical literature are crucial for synthesizing discrete findings into generalized glycan-disease associations. This …

Database search assisted N-glycan structure identification

G Jarvas, M Szigeti, MP Campbell, A Guttman - Carbohydrate Analysis by …, 2021 - Elsevier

Capillary electrophoresis-based glycan separation and structure identification is one of the most frequently used tools in almost all fields of biological-medical research and …

Meeting report on the international symposium on microbial Glycoconjugates and the GlySpace alliance: from micro-to macroglycoscience (MiGGA symposium)

M Hosoda, K Aoki, Y Guerardel, I Yamada… - …, 2022 - academic.oup.com

The International Symposium on Microbial Glycoconjugates and the GlySpace Alliance: from micro to macro glycoscience (MiGGA) was held online from March 1 to 2022 March 3 (URL …

Predicting Risk in Type 2 Diabetes and Clear Cell Renal Cell Carcinoma With Glycosylation Data and Machine Learning

K Martinez - 2024 - search.proquest.com

Glycosylation is an essential post-translational modification of proteins that influences many physiological and pathophysiological processes. Altered glycosylation patterns are …
