GTXplorer: A portal to navigate and visualize the evolutionary information encoded in fold A glycosyltransferases

R Taujale, S Soleymani, A Priyadarshi, A Venkat… - …, 2021 - academic.oup.com

Glycosyltransferases (GTs) play a central role in sustaining all forms of life through the biosynthesis of complex carbohydrates. Despite significant strides made in recent years to …

Recherche de nouvelles CAZymes grâce aux supra-opérons bactériens et exploration de l'espace des séquences pour l'annotation fonctionnelle

N Terrapon - 2026 - hal.science

Mes recherches portent sur le regroupement de séquences de modules protéiques en familles et leur utilisation pour l'annotation fonctionnelle, dont les notions et outils …

The Nutrient Sensing O-GlcNAc Modification in Development and Neuroendocrine Function

EAW Fuentes - 2024 - search.proquest.com

The O-GlcNAcylation is a ubiquitous, nutrient-sensing, and reversible post-translational modification of nucleocytoplasmic and mitochondrial proteins. It is a unique glucose rheostat …

GlyCosmos: An Integrated Semantic Knowledge Base for Glycoscience.

S Lee, Y Yamamoto, A Zappa, KF Aoki-Kinoshita - SWAT4HCLS, 2025 - ceur-ws.org

Abstract GlyCosmos, a comprehensive web resource for glycoscience research, has been significantly enhanced to provide a unified platform for accessing and analyzing glycan …

Adhesion and invasion dynamics of fusobacterium nucleatum in colorectal cancer

O Neo - 2024 - etheses.bham.ac.uk

The role of microbial dysbiosis in colorectal cancer (CRC), which ranks amongst the top five deadliest cancers, has gained a lot of research interest recently. This study focused on the …

Maximizing glycoproteomics results through an integrated PASEF workflow

M Baerenfaenger, MA Post, F Zijlstra, AJ van Gool… - bioRxiv, 2023 - biorxiv.org

Glycoproteins play important roles in numerous physiological processes and are often implicated in disease. Analysis of site-specific protein glycobiology through glycoproteomics …

Structure-Based Studies of RNA Virus Entry and Assembly in the Native Context

D Chmielewski - 2022 - search.proquest.com

Electron cryomicroscopy (cryo-EM) has rapidly become the method of choice for structural studies of macromolecular complexes in vitro, but often comes at the cost of losing valuable …

Evaluating Roles of Sialic Acid in Host-Pathogen Interactions

KA McCord - 2024 - ualberta.scholaris.ca

The surface of every cell in the human body is coated in a dense layer of sugars, technically referred to as glycans, which constitute a region of the cell known as the glycocalyx. Within …

Glycomics and Maternity

MD Kulkarni, K Panchal, M Desai - Functional Glycomics - api.taylorfrancis.com

Glycans are complex sugars that decorate most proteins and lipids in living cells. Their shapes and linkages change in response to enzymes, hormones, diet and disease. During …
